VACANCY NOTICE NO: 2178
DEADLINE FOR APPLICATION: 27 April 2022

POST	GRADE	DUTY STATION	COMMENCEMENT OF DUTY	NATURE OF APPOINTMENT
Associate Scientific Officer (Space weather and frequency protection)	P2	Geneva, Switzerland	To be determined	Fixed-term - 2 years
ORGANIZATIONAL UNIT				
Satellite Systems and Utilization (SSU) Division, WMO Integrated Global Observing System (WIGOS) Branch Infrastructure Department			WMO is committed to achieving diversity and a balanced workforce. Applications are welcome from qualified women and men, including those with disabilities. The statutory retirement age after 1 January 2014 is 65. For external applicants, only those who are expected to complete the term of appointment will normally be considered.	
DUTIES AND RESPONSIBILITIES			QUALIFICATIONS	
<p>Under the supervision of the Head of the Satellite Systems and Utilization (SSU) Division, supporting the INFCOM Standing Committee on Earth Observing Systems and Monitoring Networks and under the overall guidance of the Director, Infrastructure Department, the incumbent will be responsible for the coordination of matters relating to space weather and frequency management issues. The incumbent will perform the following duties:</p> <p>(a) Support WMO Members and NMHSs on space weather and frequency protection matters;</p> <p>(b) Serve as primary focal point and provide coordination on matters related to space weather and frequency issues, across WMO technical departments and all WMO supported programmes;</p> <p>(c) Support the work of the WMO Expert Teams on Space Frequency Coordination and Space Weather and other WMO Expert Teams as required;</p> <p>(d) Support coordination with external organizations and international initiatives (including CGMS, CEOS, GEO, UNCOUOS, COSPAR, ISES, ICAO, ITU) as required;</p> <p>(e) Maintain and coordinate the user requirements for space weather data dissemination and exchange techniques, including data formats, and support the associated dialogue between end-users and data providers;</p> <p>(f) Support international coordination of operational space weather monitoring and forecasting, and the establishment of operational space weather services, in particular in the context of ICAO;</p> <p>(g) Support the coordination of frequency management issues and impact assessment of frequency interference on the WMO ground- and space-based observing systems and fostering collaboration at international and national level;</p> <p>(h) Coordinate the WMO interactions with ITU and its subsidiary bodies, promoting and supporting the preparation of the WMO position on frequency matters for ITU WRC and elaboration of ITU-R recommendations and reports;</p> <p>(i) Keep abreast of international developments on data access and exchange, space weather and frequency issues;</p> <p>(j) Contribute to the preparation of division and department</p>			<p>Education Master's degree or equivalent in atmospheric sciences, astronomy, physics, geophysics, or a closely related field. A Ph.D. in one or other of the above sciences would be an advantage.</p> <p>Experience At least two years of progressively responsible experience in operational activities or research in Earth system and/or space weather monitoring, as well as monitoring and assessing the impact of radio-frequency interference on ground-based and/or space-based observations and associated communication technologies. Proven experience in international and scientific cooperation.</p> <p>Other requirements Sense of responsibility, maturity of judgement, initiative, originality of ideas; capacity for planning, organizing and managing work programmes. Experience in planning and organizing meetings and cooperation with national and international research partners. Excellent written and oral communication, interpersonal and analytical skills. Good working knowledge of Microsoft Office applications. Familiarity with the Programmes and activities of WMO would be an advantage. Ability to work in a multicultural environment and to foster diversity and team spirit.</p> <p>Languages Excellent knowledge of English (both oral and written). Knowledge of other official languages of the Organization would be an advantage.</p> <p>(Note: The official languages of the Organization are Arabic, Chinese, English, French, Russian and Spanish.)</p>	

plans, technical documentation and budgets relating to INFCOM and Secretariat activities and operations;

(k) Carry out other relevant duties as required.

The Secretary-General may appoint a candidate at a grade below the advertised grade of the post, with the possibility of promotion to that grade within three years of appointment, subject to satisfactory appraisal of performance.
